**Welcome to the Maastricht Business Days
Spring!**

8th & 9th March 2023 at Tapijnkazerne

MBD
Maastricht Business Days

Word of Welcome from the Chairwoman

Dear Partners and Participants,

On behalf of the Maastricht Business Days Committee 2023, it is my pleasure to welcome you to the 32nd edition of Maastricht University's biggest recruitment event.

The Maastricht Business Days (MBDs) are a platform for students and businesses to get to know each other and extend their network through different activities such as workshops, interviews, presentations, recruitment dinners, networking drinks and a company fair.

It is a great pleasure to have you in the most significant career event in Maastricht and the south of the Netherlands where our primary aim is to shape your future and help you achieve your full potential by creating the bridge between our students and our partnering companies.

First, I would like to thank all participating business partners. It is an honour to have such a diverse portfolio of businesses at our event which makes the MBDs so special.

On the following pages of this Day Booklet we are proud to introduce each of the participating companies in more detail.

I hope that we can exceed your expectations regarding this event and we are looking forward to seeing you at successive MBD editions.

Second, I would like to congratulate all students who signed up for the MBDs. This event is an outstanding opportunity to initiate your individual career paths. Take this chance and use this platform to go a step ahead of your academic career by getting in touch with prestigious and international companies.

Finally, I would like to thank everyone who was involved in realising this incredible event. The MBDs would not take place without you and I am very grateful for the dedicated team that performed excellent work to make the event happen. Starting with my wonderful committee I had the honour to work with: Thank you Luisa Lueer, Makomombero Soko, Sebastian Heck, Paula Prieto Suárez and Louise Winkelmann for your outstanding performance. I appreciate all your effort and the extraordinary work you provided.

Additionally, both their and my work would not be possible without the board of SCOPE who always has been there for us as a team. I especially would like to thank Jan Offermanns, who supported us through all stages of the event in every moment.

I wish all participants an interesting, enriching, and positive experience at this year's Maastricht Business Days Spring edition "Where Opportunities Emerge"!

All the best,

Julia van Allen

About the MBDS

In 1996, the **Maastricht Business Days (MBDs)** were initiated and have since grown into a bi-annual recruitment event. The MBDs are known as the largest and most prestigious recruitment event in the southern Netherlands, organised by and for students of Maastricht University School of Business and Economics. The recruitment event provides a unique opportunity for both students and companies to get to know each other in an international and professional setting. Various program options such as workshops, student chats, and a variety of informal activities enable both sides to get acquainted and discover mutual interests.

The event has earned a great reputation among all parties involved and offers students an excellent platform **“Where Opportunities Emerge”** so that they can initiate their future career paths.

At Belastingdienst, we contribute to a financially healthy Netherlands 24 hours a day, 7 days a week. Our more than 30,000 people do this by levying, collecting and checking taxes carefully and in accordance with the law. And by paying surcharges at Toeslagen, checking goods flows at Customs and combating fraud and money laundering at the FIOD, the Fiscal Intelligence and Investigation Service. But also by building information dashboards and developing apps that are available to every Dutch citizen and every Dutch company.

You can manage projects but not people. Leading is a completely different task: it means making sure that every single employee can grow beyond themselves. That's why leadership means trusting and supporting a person in their entirety – their talents and their personality. It sounds forward thinking – and that's exactly what it is. In our case however, this has been true for over 75 years. Experience the difference.
